

CC BLOOM Florals Wedding Pricing

Pricing Estimates for Wedding Flowers

Planning for a wedding is an exciting time however, we know staying within budget is a top concern for most engaged couples. CC and our design team will work with you to create floral designs reflecting your style and vision for your day while keeping within budget. Whether you envision a formal or casual affair, a small gathering or the social event of the year, we can provide your desired level of floral expertise. Because each wedding is unique, it can be difficult to accurately estimate without your bloom choices, overall aesthetic, etc for your wedding flowers but we can give you a general range for each common item.

Pricing Estimates

Pricing will vary depending on seasonality and floral selections but, the price ranges below will give you an idea of each item to budget accordingly. Selecting flowers based upon the season's availability and color palette rather than a particular bloom can help keep costs down and will also ensure you have the freshest blooms. This price list is an example of our general range depending on flower choices. For a more accurate estimate, please send your inspiration photos and/or Pinterest boards and a completed [CC BLOOM wedding kit](#) to events@ccbloomflorals.com.
